

Tonina

Chairs & Stools

by **Allermuir**

Design Dondoli+Pocci

The innovative and dynamic chair blends a variety of physical forms seamlessly to deliver a contemporary design that has a multitude of possible applications across a variety of marketplaces.

Tonina is a one piece gas injection moulded polypropylene chair that utilises the biomimetic method of moulding to deliver a flawless product with fantastic strength. Delivered in six contemporary colours the chair is suitable for use both indoors and outdoors thanks to it being manufactured with UV stabilisers.
